> Sarah and Kurt,
>
> I'm enclosing a draft of something I'm writing that relates to the new funding model. I'm trying to make the point that differences in the cost of programs matter, and they matter significantly. Rewarding three quite different universities based on the number of resident enrollments provides an incentive to equalize unit costs and to make all of the universities the same. This is not a good idea to my way of thinking. I welcome comments, suggestions, etc.
